

Thornless Evergreen Blackberry

Rubus ulmifolius

Medium-large (1 1/4" long, 3/4" thick), bright colored blackberry. Sweet but bland. Produces a heavy crop with vigorous semi-erect, thornless growth. Attractive foliage. Needs winter chill. Drought tolerant.

Ripens: June to July

Cold hardy to U.S.D.A. Zone 8 but will survive in Zone 7 with occasional loss of production..

Since 1944
