

# Hardyblue Blueberry

*Vaccinium corymbosum* ×

Hardyblue is an old established variety in the Pacific Northwest that is known for heavy crops of superior flavored, very sweet berries.

The dark blue, medium sized fruit is perfect for muffins and pancakes.

Hardyblue has a reputation for being adaptable to many soil types, including heavier clay soils.

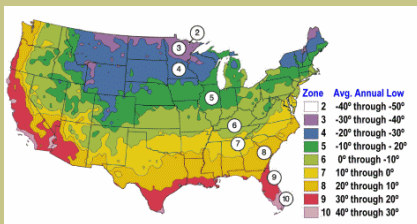

The dark red wood is striking in a winter landscape. Bright red fall color. Bush height 4-6 feet.

Semi-self fertile. Plant with other blueberries for higher production.

Cold hardy to U.S.D.A. Zone 4.
