

Rubel Blueberry

Vaccinium corymbosum

A true wild Highbush blueberry discovered in the early 1900's, Rubel has remained popular due to its delectable full-flavored small berries, perfect for pies and muffins. Mid to late season.

Blueberries have gained attention due to their extremely high antioxidant levels. Research shows that Rubel scores higher than most others - truly the "king" of health foods!

Upright grower to 4-6 feet.
Fire red fall color.

Semi-self fertile. Yields improve if planted with another blueberry.

Rubel is cold-hardy to U.S.D.A. Zone 4 and a consistent producer.
