

Dawn Flowering Apricot

Prunus mume 'Dawn'

A beautiful display of fragrant, double, ruffled pink flowers. Very fragrant with a spicy scent.

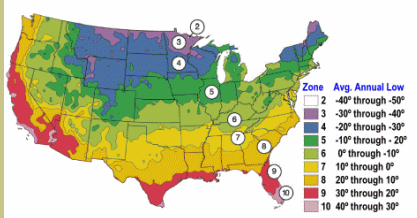

These trees have been very popular in China and Japan and now are becoming popular in the United States.

It flowers very early in the season: January in mild climates and Feb.-March in colder areas.

Blooms develop on last year's branches.

Mature height is 15-20 feet with a spread of 15-20 feet.

Cold hardy to U.S.D.A. Zone 6.

Since 1944
