

# Shirofugen Flowering Cherry

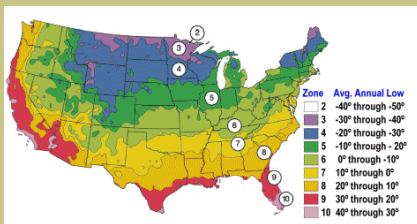

*Prunus serrulata 'Shirofugen'*

Incredible, long lasting flowers in the spring. Pink buds open to large, double white blooms which fade in time to a lovely pink. One of the latest to bloom.

Coppery-red foliage when young, turning to green in summer. Orange-red hues in autumn.

Mature height is 25-30 feet with a spread of 25 feet.

Cold hardy to U.S.D.A. Zone 5.

Pink buds open to double white, which over time fades to lovely pink.

Since 1944
