

Pink Perfection Flowering Crabapple

Malus 'Pink Perfection'

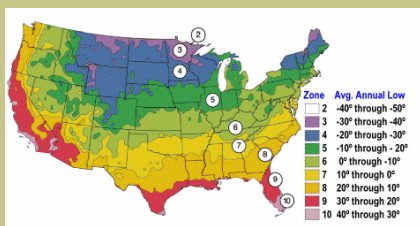

One of the most stunning displays of blooms in the spring.

Red buds open to large double pink flowers. The thick, heavy foliage retains its good green color until fall. The crown is full and rounded. The fruit is yellow and insignificant.

Excellent resistance to Rust and Powdery Mildew and somewhat resistant to Fireblight. If you have Scab in your area, do not plant this tree.

Mature height is 20 feet with a spread of 20 feet.

Cold hardy to U.S.D.A. Zone 4.

Since 1944
