

Golden Delicious Apple

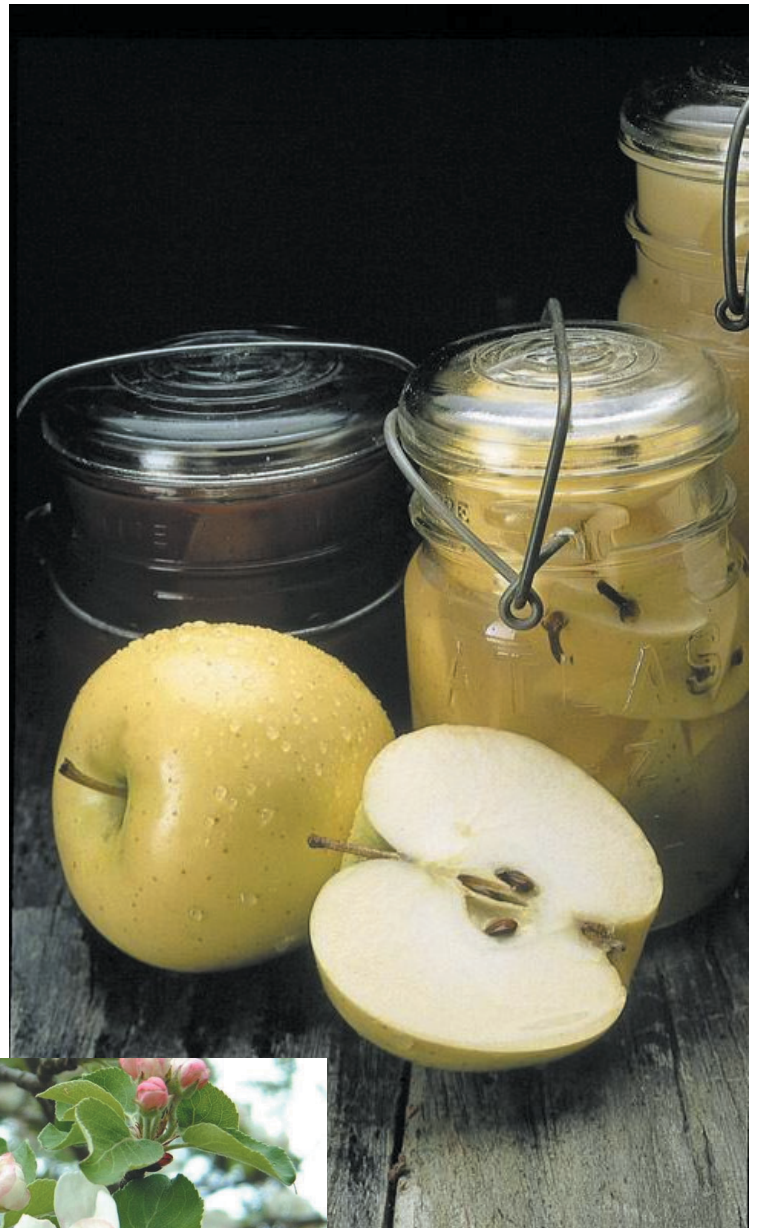

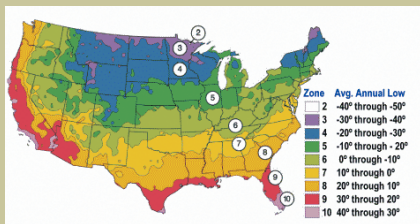

Malus sp.

Developed in the late 1800s and introduced in 1916, the Golden Delicious apple has become one of the most widely planted in the world. With its firm, crisp and juicy flesh and its mild sweet, distinctive flavor it is a high quality all purpose apple. Good pollenizer for most apples.

Ripens: September to October.

Requires 600-700 hours of chill below 45 °F.

Cold hardy to U.S.D.A. Zone 5.
