

Granny Smith Spur Apple

Malus sp.

Large, excellent apple for eating, cooking and sauce.

Skin has shades of green with occasional light striping. Flesh is firm, sweet/tart.

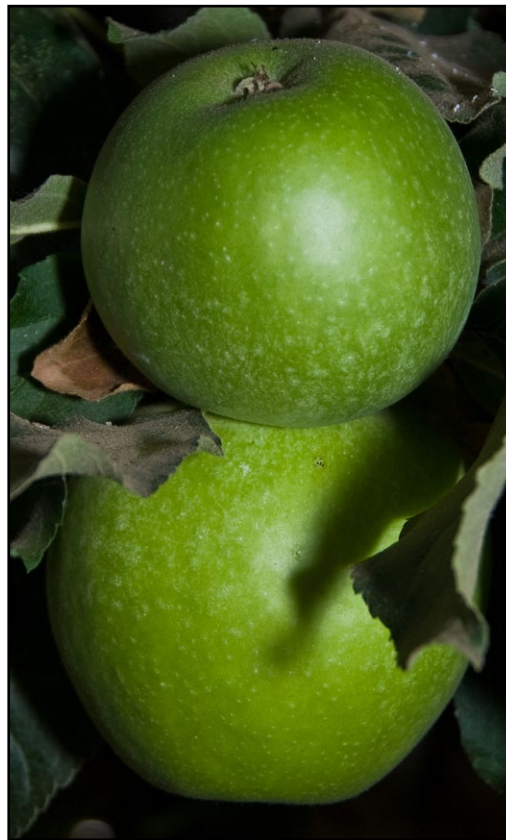

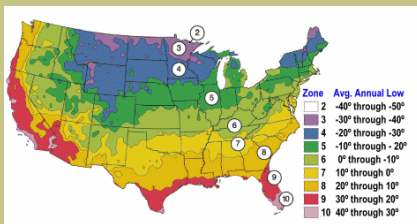

Apples grow on spurs inside the tree making it an excellent choice for hot summers. Does well in cold climates if adequate length of season.

Tree is naturally semi-dwarf growing.

Requires 400 hours of chilling.

Ripens: September to late October.

Cold hardy to U.S.D.A. Zone 6.

Spring Bloom

Heavy Set of Apples inside on Spurs

Since 1944
