

Jonagold Apple

Malus sp.

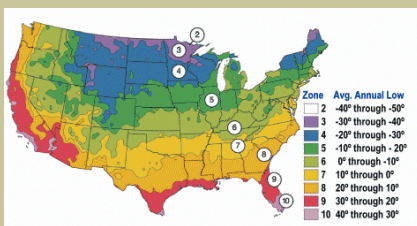

Extra large fruit. First to sell-out at roadside fruit stands but often too large for commercial packaging for markets. Frequent taste test winner. Yellow with red-orange blush covering entire apple. Flesh is crisp with an outstanding flavor. Cross between Jonathan and Golden Delicious developed in Geneva, New York.

Needs a pollinizer. Pollinized by Fuji, Red Delicious but not Yellow Delicious.

Requires 700-800 hours chilling below 45°F.

Ripens: Late September, along with Red Delicious.

Cold hardy to U.S.D.A. Zone 5.
