

# Bonfire "Patio" Peach

*Prunus persica* sp.

A dwarf sized ornamental peach tree ideal for smaller yards and as accent plants.

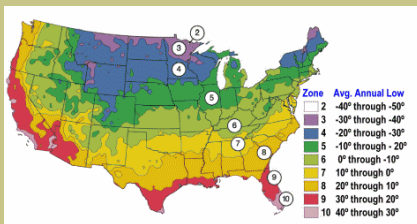

Spring is ushered in with showy, pink flowers adorning this diminutive tree.

Its real treat are the long, showy, dark red leaves throughout the spring and summer.

Tree will set some fruit but they are not desirable for eating.

Naturally occurring mature height is 4-6 feet with a spread of 4-5 feet.

Cold hardy to U.S.D.A. Zone 7.

Since 1944
