

Empress "Patio" Peach

Prunus persica sp.

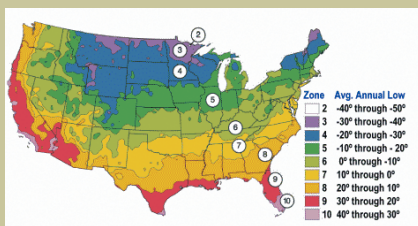

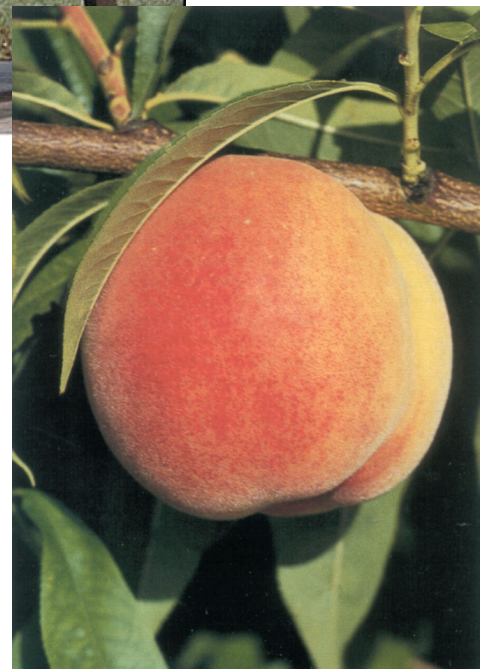

Outstanding peach due to its delicious juicy, sweet flavor. Large, highly colored pink to red skin (almost glows). Yellow Flesh. Prettiest fruit and bloom. Most cold hardy of genetic dwarf peaches. Clingstone.

Requires 850 hours of chilling below 45°F.

Ripens: Late July to Early August.

Naturally occurring mature height is 4-5 feet with a spread of 4-5 feet.

Cold hardy to U.S.D.A. Zone 5.
