

Donut (Stark Saturn) Peach

Prunus persica sp.

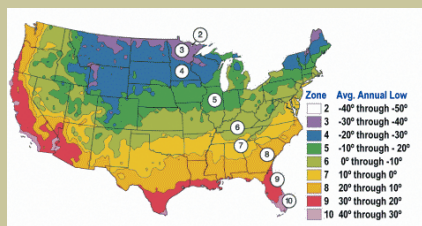

An unusual and very hardy, somewhat flattened, peach. About 2 1/2" in diameter. It is freestone and has a very sweet, mild, white flesh. Bacterial spot resistant. Also known as the Saucer or Pen-Tao peach. The Hardiness is similar to Reliance. Developed by New Jersey Ag. Exp. Station.

Requires 400-500 hours of chilling below 45°F.

Ripens: Late June to Early July with the Red Haven.

Mature height is 18-25 feet with a spread of 18-25 feet.

Cold hardy to U.S.D.A. Zone 6.
