

# Comice Pear

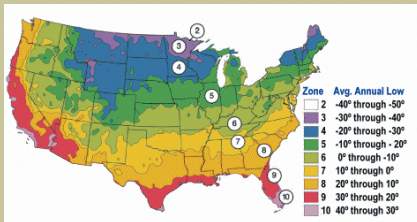

*Pyrus communis sp.*

Grow these and put 'em in your own gift boxes. Giant, juicy, rich-flavored pears are golden with a trace of red. Self fertile in the arid West but produces better when planted with Bartlett or other pears. It is blight-resistant.

Requires 200-300 hours of chill below 45°F.

Ripens: August.

Cold hardy to U.S.D.A. Zone 5.

Since 1944
