

Mild Climate Pear Combination

Pyrus communis sp.

The Mild Climate Pear Combination was created for those areas with 300 or more hours of chilling.

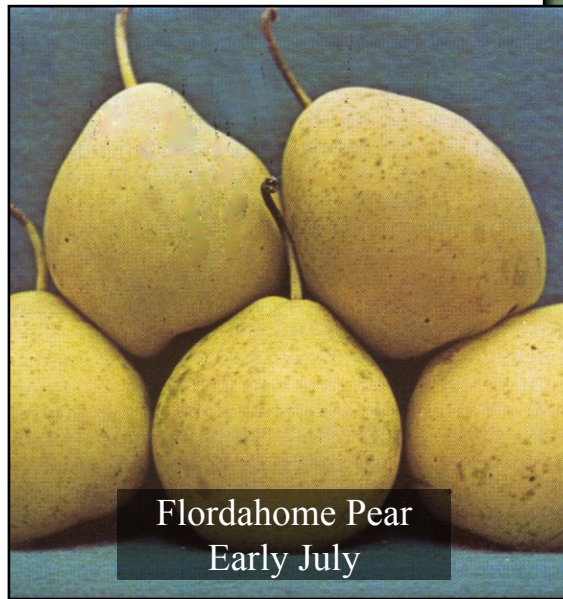

The tree is made up of three to four of the following favorite varieties:

Flordahome: Small to medium. Skin is light green, smooth, and tender. Flesh is very juicy and melting with good pear flavor. Ripens: Early July.

Hood: Large. Smooth, yellow-green skin. Mild, sweet flavor. Buttery texture. Ripens: Mid to Late July.

Comice: A favorite often seen in gift packs. Rich, sweet creamy flesh. Ripens: August.

Monterrey: Large, apple shaped. Yellow-green skin. Good, sweet flavored flesh. Ripens: August into September.
Cold hardy to U.S.D.A. Zone 5.
