

Fan-West™ Ash

Fraxinus 'Fan-West'

A great shade tree. This vigorous ash is super tough. It thrives in poor, dry soils and also grows well in cold, windy, harsh locations. This outstanding deciduous shade tree has a strong upright central leader and broad, rounded crown with great branching.

Large, olive green foliage on a good limb structure. Sterile (Seedless)

Cross of Texas Green Ash and Arizona Ash found by Eddie Fanick of San Antonio along the Guadalupe River.

Mature height is 40-55 feet with a spread of 40-45 feet.

Cold hardy to U.S.D.A. Zone 6b-7.
