

Dura-Heat River Birch[®]

Betula nigra 'BNMTF'

An outstanding selection for residential or commercial landscapes.

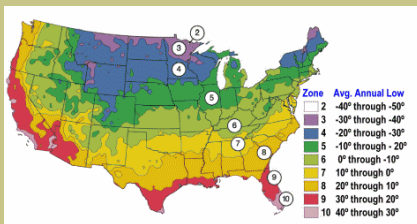

Superlative lustrous dark green leaves that turn soft butter yellow in the fall. Denser canopy than other River Birch selections.

Creamy white bark exfoliates on 1"-2" diameter branches. Bark appearance is superior at an earlier age.

Insect Resistance:
Reported to have good resistance to bronze birch borer.

Grows to a height of 40 feet and spread of 30 feet.

Cold Hardy to U.S.D.A. Zone 5.

Since 1944
