

European Hornbeam

Carpinus betulus

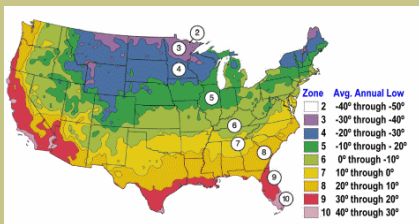

Fine landscaping tree for use as screens, hedges or as an individual specimen. This species withstands frequent shearing and is often planted into lined streets and walkways in Europe.

Pyramidal shape in youth, oval at maturity. Dark green foliage turns to yellowish-green in the fall.

Heat and drought resistant and relatively free of disease and pest problems.

Height 40-60 feet, width 30-40 feet.

Cold hardy to U.S.D.A. Zone 5.

Since 1944
