

Ebony Flowering Pomegranate

Punica granatum 'Ebony'

A very unique plant. Dark orange-red flowers immediately turn into small, ornamental, shiny reddish-black pomegranates.

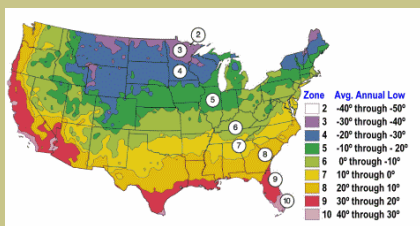

Ornamental fruit persists on plant through winter. Fruit does not taste good, so don't eat it.

Drought Tolerant.

Mature height and width 8-10 feet.

Cold hardy to U.S.D.A. Zone 7B.

From the collection of Herbert Kelly Jr.
