

# Coronation Triumph Potentilla

*Potentilla fruticosa* 'Coronation Triumph'

Potentilla fruticosa, is a small, low maintenance, deciduous shrub which is an excellent addition to a butterfly garden, or for areas where deer are a problem. The yellow buttercup-like flowers first appear in June and will continue to brighten your landscape until the first frosts of Fall. Coronation Triumph is the earliest to bloom and one of the longest blooming of all Potentillas.

Mature height is 3-4 feet with a spread of 2-3 feet.

Cold hardy to  
U.S.D.A. Zone 3  
(maybe 2).
