

Minerva Flowering Quince

Chaenomeles speciosa 'Minerva'

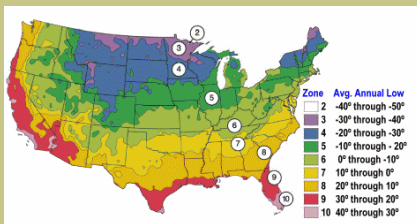

Flowering Quince are prized for their early blooms in the spring - before most other plants wake up. Stems are often cut and brought indoors to bloom.

Large, velvety, cherry red flower. Small showy shrub. Flowers resemble apple blossoms and are clustered along branches from early spring to summer. Sunny locations.

Attractive to birds.

Low spreading shrub. Mature height is 2-4 feet with a spread of 3-4 feet.

Cold hardy to U.S.D.A. Zone 5 maybe 4B.
