

Lakemont Grape

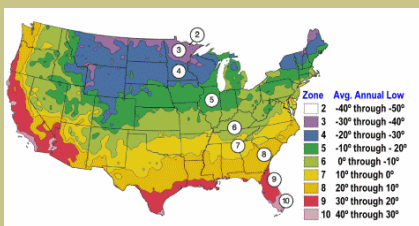

(Seedless)

Vitis vinifera

This light green to gold grape is juicy, crisp and has great flavor. It is great for fresh eating and raisins. Lakemont was developed from California Thompson Seedless, is a sister to Himrod, Interlaken and Romulus and is the most productive of the three. It has the largest, tightest cluster of all the seedless grapes. Cane pruning.

Ripens: Late August, 10-20 days before Eastern Concord.

Cold hardy to
U.S.D.A. Zone 5.

Since 1944
