

Pocahontas Lilac

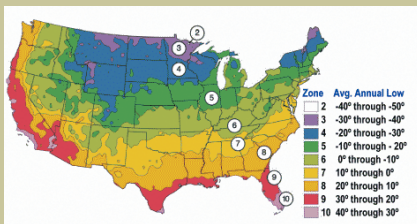

French Hybrid Lilac

Syringa × hyacinthiflora

Maroon-purple buds open to large individual florets, which are borne on large panicles emerging purple and then fading to an attractive deep lilac color. The plant is broad, well shaped, and full to the base. Does not sucker freely. Early bloomer. Developed in Manitoba, Canada

Mature height is 10-12 feet with a spread of 10-12 feet.

Cold hardy to U.S.D.A. Zone 2.

Since 1944
