

Chanticleer® Flowering Pear

Pyrus calleryana 'Glen's Form'

The growth habit is dense, narrowly pyramidal, and evenly branched with crisp, glossy green foliage. New growth shows a reddish tint. It has a heavy abundance of single white flowers in the spring and outstanding reddish-orange to purple fall color.

Mature height is 30-35 feet with a spread of 15-18 feet.

Cold hardy to
U.S.D.A. Zone 5.
