

New Bradford Flowering Pear

Pyrus calleryana 'Holmford'

Snowy white flowers.
Very early bloom.
Orange-red fall foliage.
Excellent for curb-side planting. It has up-sweeping branches, more erect form of the species. Dense symmetrical crown, but narrow in youth, becoming quite round with age. Branching is stronger than the original Bradford, enabling it to withstand strong winds.

Mature height is 30-35 feet with a spread of 30 feet.

Cold hardy to
U.S.D.A. Zone 5.

From the nurseries of
