

# Berkeley Blueberry

*Vaccinium corymbosum* ×

One of the most popular Northern Highbush varieties for home gardens.

Medium to large berries. Powder blue, firm with slight aroma, less acid than most.

Good ornamental value with brilliant autumn color and yellow twigs in winter.

Semi-self fertile. Recommend second variety for better production.

Ripens: Mid to late season.

Vigorous, spreading bush. Mature height is 5-7 feet with a spread of 5-6 feet.

Cold hardy to U.S.D.A. Zone 5.
