

Crimson Pointe® Flowering Plum

Prunus cerasifera 'Cripoizam'

Dense, very narrow columnar form for today's smaller yards. Branches grow almost parallel to the main trunk.

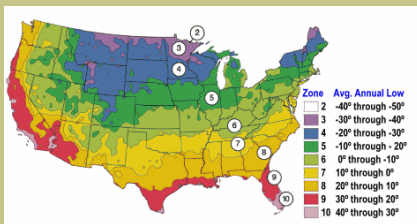

Rich merlot-burgundy foliage accents orange-bronze new growth as it emerges, creating a very unique and stunning effect.

Has deep purple fruit.

Mature height is 20-30 feet with a spread of 6-8 feet.

Cold hardy to U.S.D.A. Zone 4.

Plant Patent #PPAF
