

Cold Climate Apple Combination

Malus sp.

The Cold Climate Apple Combination was created for those areas with 900 or more hours of chilling.

The tree is made up of three to four of the following varieties:

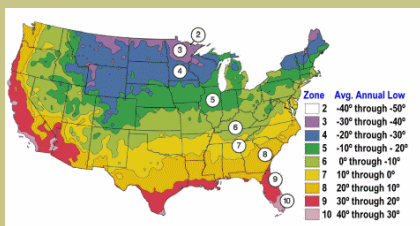

Gravenstein is the earliest to ripen. Large, green apple with red stripe skin. A great cooking and eating apple.

Granny Smith is the next to ripen. Large, bright green apple with sweet/tart flesh. Good for eating, cooking and sauce.

Red Delicious is a long time favorite. Red, waxy skin with crisp, juicy, pure white flesh.

Yellow Delicious is another long time favorite for its sweetness and flavor. Large, golden yellow skin with firm, crisp, delicious flesh.

Cold hardy to U.S.D.A. Zone 5.

Gravenstein Apple
July

Granny Smith Apple
August - September

Red Delicious Apple
September - October

Yellow Delicious Apple
September - October
