

Hardy Chicago Fig (aka Chicago Hardy Fig)

Ficus carica sp.

Small to medium fruit with light brown to violet skin and strawberry pink pulp. Small eye. Pear shaped with long slender neck. Excellent flavor. Resembles Brown Turkey or Celestial.

Self Fertile.

Ripens: Summer into Fall

Requires negligible hours chilling below 45°F.

Cold hardy to U.S.D.A. Zone 5. In cold areas it dies to the ground but will still fruit on new growth. Protect roots from freezing.
