

Crimson Rocket Columnar Peach

Prunus persica 'KV930455'

Unique, narrow, columnar form makes this peach tree ideal for smaller yards and narrow spaces. Fruit is flavorful, dessert quality, firm until full ripe then melting. Skin color is about 80% red blush over yellow. Freestone.

Requires approximately 800 hours of chilling below 45° F.

Ripens Late June to Early July.

Mature height is 20 feet with a spread of only 6-8 feet.

Cold hardy to U.S.D.A. Zone 7.

From USDA-ARS.
(Plant Patent # 15216)
