

Galaxy Peach

Prunus persica sp.

Nicknamed “Bagel Peach” for its unique shape and large size.

Sweet tasting, white fleshed peach with an amusing, flat shape - looking something like a bagel.

Similar to popular Donut/Saturn Peach except larger.

Requires approximately 450 hours of chilling below 45° F.

Ripens in Late June.

Cold hardy to U.S.D.A. Zone 7.

Compared to smaller Donut Peach
