

# Fan-Stil<sup>®</sup> Pear

*Pyrus communis sp.*

Medium size, with typical bell pear shape.

Creamy yellow skin with slight red blush. Crisp, juicy white flesh.

Self-fertile, bears consistently.

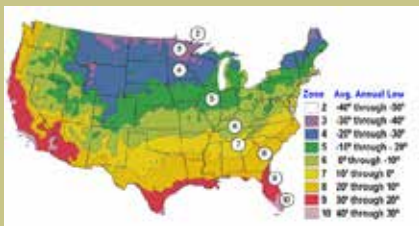

Most resistant to fireblight of the pears.

Ripens: Late August into September.

Requires approximately 500 hours chilling below 45° F.

Cold hardy to U.S.D.A. Zone 6 and probably lower.
