

Flordahome Pear

Pyrus communis sp.

Small to medium. Skin is light green, smooth, and tender. Flesh is very juicy and melting containing a few stone cells around a small core. Has a good pear flavor.

Reliably pollinated by Hood.
Highly resistant to fire blight.

Ripens: July-into August.

It is one of the lowest chill requirement cultivars known: 150-250 hrs. hours chilling below 45° F

Cold hardy to U.S.D.A. Zone 8 and probably lower.

Since 1944
