

Moderate Climate Pear Combination

Pyrus sp.

The Moderate Climate Pear Combination was created for those areas with 500 or more hours of chilling.

The tree is made up of three to four of the following favorite varieties:

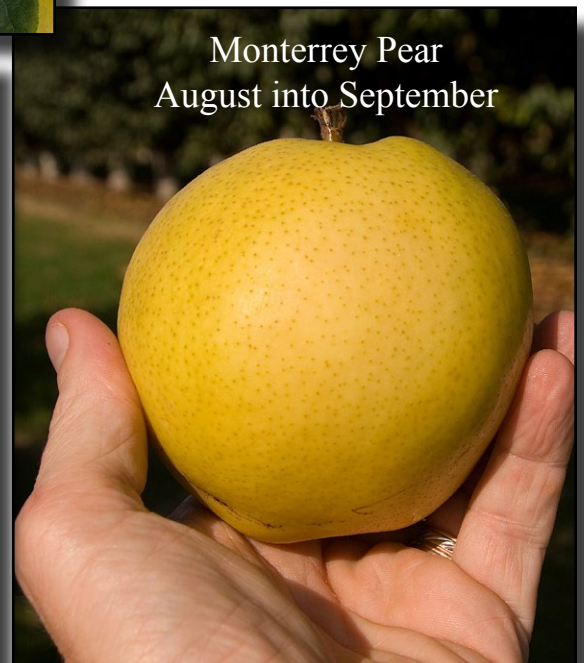

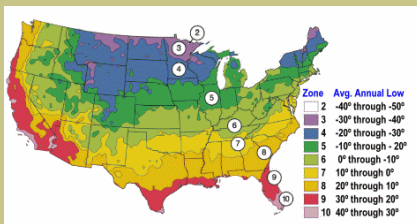

Twentieth Century: Asian “Apple” Pear. Round, juicy pear great for eating right off the tree. Ripens: Late July through Mid-August.

Pineapple: Large. Russet colored skin. Pineapple flavored flesh. Ripens: August.

Orient: Large, round. Smooth texture, sweet, juicy white flesh. Ripens: August.

Monterrey: Large, apple shaped. Yellow-green skin. Good, sweet flavored flesh. Ripens: August into September.

Cold hardy to U.S.D.A. Zone 6.

Since 1944
