

# Eastern Concord Seedless Grape

*Vitis labrusca*

Seedless sport of the Concord Grape.

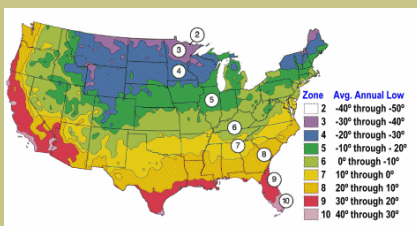

Slightly smaller clusters and berries than regular Concord (no seed inside). Same color and flavor, slightly sweeter. An occasional vestige of a seed may be found.

Cane pruning.

Self Fertile.

Ripens: Late August into September, one week ahead of the Concord Grape.

Cold hardy to U.S.D.A. Zone 5.

Since 1944
