

Himrod Grape

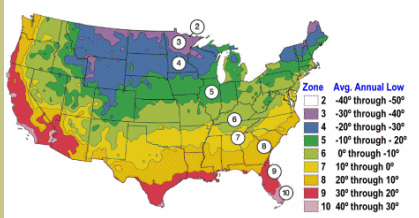

Vitis vinifera ×

An excellent seedless grape for most grape growing areas but specially prized for colder climates.

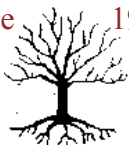

A greenish-yellow translucent seedless grape. It produces sweet, very good quality fruit. Clusters are large but rather loose and have seedless berries that are medium in size and oval in shape. Berries can also be used to produce raisins. Self Fertile.

Ripens: August to September.

Cold Hardy to U.S.D.A. Zone 5.

Since 1944
