

Bonita Ash

Fraxinus velutina coriacea 'Bonita'

Desirable shade tree for Southwest regions. With a broadly oval to mushroom shaped head, it develops a fuller shape at an early age. Usually broader than tall. Intense yellow fall color, is better and lasts longer than Modesto Ash.

Grows to a height of 30-35 feet and a spread of 30-35 feet.

Cold Hardy to U.S.D.A. Zone 7.
