

# Canada Red Chokecherry

*Prunus virginiana 'Canada Red'*

Colorful foliage emerges green and matures to reddish purple. White flowers are 4 inch long drooping clusters that have a strong, sweet almondlike fragrance. Birds love the abundant 1/4" red fruit crop.

Oval to rounded shaped head.

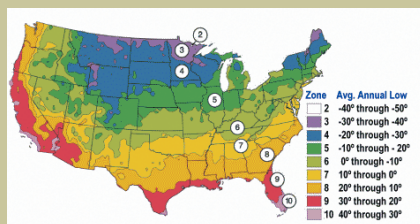

Purple-red fall color.

This plant is resistant to Japanese beetles due to a moderately-high cyanide content.

Note: Tolerates only slight alkalinity in soil.

Mature height is 25 feet with a spread of 20 feet.

Cold hardy to U.S.D.A.  
Zone 2.

Since 1944
