

Golden Rey Elm

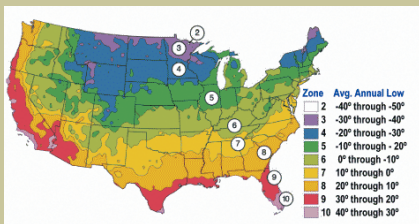

Ulmus parvifolia 'Golden Rey'

New foliage is prim-rose yellow, deepens nearly to yellow gold before autumn leaf drop. Shaded leaves tend to be light lettuce green. It has the beautiful exfoliating barks typical of the species. Upright when young and more rounded with age.

Mature height is 40-60 feet with a spread of 25-40 feet.

Cold hardy to U.S.D.A. Zone 6.

Patent # 7240
